PI-09/21/08

(a) Planning Applications for Consideration

Reference: 21/04087/FUL

Planning

Address: Ivy House, Scotland Street, Ellesmere, SY12 0DH

Proposal: Erection of 6No. flats and formation of new parking areas

After much discussion, all members agreed that it will be good to see development on this site if adequate parking could also be delivered, councillors were still not satisfied with the lack of parking being provided in this application or the loss of existing parking for local residents.

The application states that there are 10 parking spaces for the development which comprises of 6 old and 6 new flats. However, there are still only 5 official parking spaces (as in the previous application) on the site itself, for all 12 flats.

The other 5 parking spaces proposed for the site which are next to Laurels Close (which it says the applicant owns already) are currently used by the elderly residents of Laurel's Close and have been for many years. If the application is approved, those residents will be forced to find alternative parking. There are no public car parks in the immediate vicinity other than Tesco's carpark which has parking restrictions and is managed and enforced by a private car parking agency. The design and access statement suggests that this car park should be used for further parking, which would be inappropriate.

It was agreed to ask the applicants where they expect the elderly residents of Laurel's Close to park if the application is approved?

Because Councillors agree in principle to development of this site but because they still oppose the inadequate parking this proposal presents, they agreed to submit their comments but have decided they did not want to support nor fully object to this current application as it stands.

RESOLVED: To submit comments to Shropshire Council.
